

Dear Mama,

I received the V mail Daddy wrote the 15th of Dec. a few days back. I also got a paper for Nov. 29. I haven't been writing many letters because there isn't much to say and what I can think of the censor would not let pass. I have been to town several times now. It is a fair size town and I think it is a very nice town. I wish I could tell you the name and where it is but all I can say is that it is in England and I have told you that before. The people here are very friendly I haven't seen the town in daytime but once so I don't know much what it looks like. I hope you will be able to read this letter. Maby [sic] Gertrude will read it to you. Send more Vmail. They have been known to get here in ten days.

If you want to send me somethank [sic] I could use a good flashlight. Be sure to get one with standard size batteries and not over two cell.

I guess you noticed the change in my APO address and I am no longer in the 42 Group. It rains here ever [sic] day or two but it hasn't been so very cold yet. It did snow here a while back but it soon melted.

The chow over here is better than I though [sic] it would be but there is no milk and that's what I miss most. I got in the habat [sic] of buying two or three milkshakes a day so I sure miss them. I can't go the [sic] tea they have here.

I can't think of much more to say os [sic] I guess I will close for this time. Write as often as you can.

Love,
Norman
